

MANUAL VAN

HAPPY LITTLE
CAMPER

HELLO!

ADVENTURE BECKONS YOU

Before setting off on your trip here are some things you should know...

THE VAN

- Auto transmission
- Diesel petrol

Refer to the Mercedes Vito manual located in the glove box for more information.

THE FRIDGE

On the road

Plug the fridge into the vehicle socket when driving.

Van is parked

When parked at a powered campsite, change the 12V cable over to the 240V cable and connect to the power outlet. An extension cord is supplied for extra reach.

When parked at an unpowered site, plug the fridge into the iTECH200P portable battery. A fully charged battery can power the fridge for approx 15 hours before any recharge is required. Refer to the fridge manual located in the glove box.

iTECH200P PORTABLE BATTERY

Three ways to charge the battery;

1 Charge while you drive by plugging the battery cable into the vehicle socket. Takes 8–9 hours to reach full capacity.

2 Charge using the solar blanket via the alligator clips.

The solar charge controller will show the battery is charging as the sun hits the solar panels. Takes 8–9 hours to reach full capacity.

3 If parked at a powered campsite, you can charge the battery using the wall adapter. Takes 7–8 hours to reach full capacity.

For further information refer to iTech200P manual located in the van manual folder.

JUMP START KIT

In the event the van cannot be started due to a flat vehicle battery, use the jump starter kit found in the glove box.

THE BED

To pull out the bed, lift on a slight angle as you pull. Doing this will avoid hitting the fridge air vent.

For extra comfort, there is a self-inflating mattress located in the storage compartment opposite the pull out bed.

EXTRA BITS

- FIRE EXTINGUISHER located under the passenger seat.
- SPARE TYRE + JACK located in the storage compartment behind the driver seat.

HELP! IN CASE OF AN UH OH MOMENT...

Before taking off on your trip download the 'emergency plus' app, which uses GPS functionality that is built into smart phones to help you provide critical location details required to mobilise emergency services.

1 If you are in serious danger or require immediate medical attention dial
